## Education

### B.Tech

Indian Institute of Information Technology Bhopal / 11/2022 - Present  
Bhopal

- Secured 9.59 CGPA in 1st Year.

## Projects

### To-Do List

Web-Project

- Implemented a dynamic task management system that allowed users to effortlessly add, update, and remove tasks in real-time.
- Utilized React's state management to ensure smooth task manipulation without page reloads.
- Ensured seamless functionality and aesthetics across various devices by implementing responsive design principles.

### Weather App

React app

- Developed real-time weather updates by integrating a weather API for current conditions, hourly forecasts, and extended outlooks.
- Created an intuitive global search bar for location-specific weather retrieval through API endpoints.
- Enhanced aesthetics with dynamic weather icons that adapt to real-time conditions, enhancing user engagement.

### Wordle Game

React app

- Created a dynamic and responsive user interface in React, guaranteeing seamless interaction across devices.
- Utilized React's state management for real-time player feedback, including instant updates on correct/incorrect letters and accurate score tracking.
- Integrated external APIs to fetch word data, enhancing replayability with a diverse word pool for ongoing engagement.
